DF703
Phoenix

Smart Money!

The Seppi Midiforst MT 175 mulches up to 12" material. High production mulcher in a compact design!

DF703's hydraulic system can easily connect to a number of attachments - including Seppi mulching heads.

Seppi Midiforst MT 175

The new DF703 Phoenix Feller Buncher is the perfect machine for increasing your profits in thinnings and small tract operations.

Our compact 3-wheel design allows you to produce more in tight quarters compared to larger bunchers. The DF703 also reduces your cost of ownership.

The Phoenix offers all the comfort and visibility of larger machines, but with

zero-tail swing performance and the soft footprint that landowners appreciate.

The powerful 130HP engine has more than enough power for our 18-inch capacity saw head and uses 25% less fuel than oversized units.
